## Reglement HotRod

### Technisches Reglement

Es gilt **nur** der Anhang 1:24 vollinhaltlich, darüber hinaus wie folgt:

#### Karosserie

**Hot rods** are typically American cars with large engines modified for linear speed. The origin of the term "hot rod" is unclear. One explanation is that the term is a contraction of "hot roadster," meaning a [roadster](#) that was modified for speed. Roadsters were the cars of choice because they were light. The term became commonplace in the 1930s or 1940s as the name of a car that had been "hopped up" by modifying the engine in various ways to achieve higher performance.
